Cremation numbers from the Cremation Association of North American. *Official 2008 preliminary figure provided by State Health Department or similar entity (i.e., 24 states reported their figures). **2008 United States death data from the National Vital Statistics Department: Vol. 52, No. 22, 6/10/2004; Vol. 21; Vol. 53, No. 21, 6/28/2005; Vol. 54, No. 20, 7/21/2006; Volume 56, No. 21, 10/15/2008, Vol. 57, No. 17, 6/26/2009. The National Vital Statistics Dept. has published 2008 death totals for only January through October. For that reason, the 2008 death total was estimated for states not submitting last year's figures. Estimations were calculated by adding the National Vital Statistics Dept. published 2008 death totals to the averaged November and December death totals published from 2003 through 2007. ***California Cremation total collected from the Association of California Cremationists. ¹ - TN cremations derived from surveying state crematories and 2007 confirmed death count from National Vital Statistics.
